

unitech of alaska

PRODUCT GUIDE

Unitech of Alaska carries a wide range of environmental supplies. The equipment and products shown were carefully chosen using our extensive knowledge of oil spill response world-wide.

We are dedicated to supplying the best products available to meet any of the vital “spill response” needs of the many industries we serve. Unitech of Alaska has knowledgeable staff, prompt service and extensive product lines.

We are available to assist you for your emergency spill response needs 24 hours per day. If a product you are searching for is not shown in the catalogue, call us. If we cannot find it, we will make it.

Thank you for your support, and we look forward to building a long and productive relationship. More in depth information on our products and people can be found at **www.unitechofalaska.com**.

SECTION 1 - SORBENTS

Unitech of Alaska sells quality sorbents. Listed below are standard stock items. As with all our products special orders are available.

SONIC BONDED

Sonic bonded sorbents are constructed from a single layer of high quality uniform polypropylene fibers. The fibers are then sonically bonded together for added strength which helps reduce linting. Sonic bonded sorbents are available in single, medium and heavy weights to suit a variety of spill control and industrial clean-up situations. Pads and rolls are perforated for easy and exact use.

Item Number	Format	Color-Application	Size	Units/Case	Qty/Pallet
HL-WPB-H	Pads	White - Oil Only	16" x 20"	100	30
HL-WP-H-King	Pads	White - Oil Only	30" x 40"	50	15
HL-WPB-M	Pads	White - Oil Only	16" x 20"	100	36
HL-WRB-M	Rolls	White - Oil Only	30" x 150'	1	18
HL-WRB-H-S-150	Split Rolls	White - Oil Only	15" x 150'	2	18

HL-YRB-M-150	Rolls	Yellow - Hazmat	30" x 150'	1	18
US-WPB-H	Pads	White - Oil Only	15" x 18"	100	30
US-WPB-M	Pads	White - Oil Only	15" x 18"	100	36

LAMINATED

Laminated sorbents are constructed by ultrasonically bonding outer layers of durable polypropylene spun bond to high loft melt blown center. Laminated sorbents are non-linting and are the most durable of our product lines. Extreme softness and drape ability are key features of these sorbents. Pads and rolls are perforated for easy and exact use.

Item Number	Format	Color-Application	Size	Units/Case	Qty/Pallet
HL-WPL-H	Pads	White - Oil Only	16" x 20"	100	30
HL-WPL-M	Pads	White - Oil Only	16" x 20"	100	36

US-WPL-H	Pads	White - Oil Only	15" x 18"	100	30
US-WPL-M	Pads	White - Oil Only	15" x 18"	100	36

MELT BLOWN

Melt blown sorbents are constructed from a single layer of strong uniform polypropylene fibers. They incinerate to less than two percent ash, will float indefinitely and not mildew.

Item Number	Format	Color-Application	Size	Units/Case	Qty/Pallet
HL-WP-H	Pads	White - Oily Only	16" x 20"	100	30
HL-WP-H-KING	Pads	White - Oily Only	30" x 40"	50	15

HL-WR-H-S-150	Spilt Rolls	White - Oily Only	15" x 150'	2	18
HL-WR-M-150	Rolls	White - y Only	30" x 150'	1	18
HL-WR-M-S-150	Spilt Rolls	White - Oily Only	15" x 150'	2	18
US-WP-H	Pads	White - Oily Only	15" x 18"	100	30
US-WP-M	Pads	White - Oily Only	15" x 18"	100	36

STATIC RESISTANT

Static resistant melt blown sorbents are constructed from a single layer of melt blown polypropylene fibers which have been combined with a static resistant additive.

Item Number	Format	Color-Application	Size	Units/Case	Qty/Pallet
HL-ASP-S-E1850	Pads	White - Static Resistant	16" x 20"	50	
HL-1825	Pads	White - Static Resistant	16" x 20"	25	n/a
E1850MASTER(Assembly)	Pads	White - Static Resistant	16" x 20"	100	(2 Pack)
HL-ASP-H-K-E3625	Pads	White - Static Resistant	30" x 40"	25	n/a
HL-ASR-E3601	Rolls	White - Static Resistant	30" x 150'	1	n/a
HL-ASRHS-E3601s	Split Rolls	White - Static Resistant	15" x 150'	2	n/a

SOCKS

Our full line of socks all have knitted sleeves and contain the highest quality, 100% polypropylene fill available. Oil only socks are available in white and blue. Universal socks are offered in gray and corncob. Hazardous material situations may be tackled with our yellow sock

Item Number	Format	Color-Application	Size	Units/Case	Qty/Pallet
WSOCK-440	Socks	White - Oil Only	3" x 4'	40	12
WSOCK-820	Socks	White - Oil Only	3" x 8'	20	12
WSOCK-1610	Socks	White - Oil Only	3" x 16'	10	12
B SOCK-440	Socks	Blue - Oily Only	3" x 4'	40	12
B SOCK-820	Socks	Blue - Oily Only	3" x 8'	20	12
G SOCK-440	Socks	Gray - Universal	3" x 4'	40	12
G SOCK-820	Socks	Gray - Universal	3" x 8'	20	12
Y SOCK-440	Socks	Yellow - Universal	3" x 4'	40	12
Y SOCK-820	Socks	Yellow - Universal	3" x 8'	20	12

DRUM TOPS

Drum top covers are available in white oil only and gray universal. They are pre-cut to fit a 50-gallon drum with allowance for fill and breather holes.

Item Number	Format	Color-Application	Size	Units/Case	Qty/Pallet
Drum Top - W	Drum Top	White - Oil Only	Drum Top	25	72
Drum Top - G	Drum Top	Gray - Universal	Drum Top	25	72

SWEEPS

Sweeps are constructed from a heavy layer of melt blown polypropylene ultrasonically welded to a layer of blue spun bound fabric.

Item Number	Format	Color-Application	Size	Units/Case	Qty/Pallet
US-SWEEP-100	Sweep	White - Oil Only	19" x 100'	1	36

BOOMS

Our booms are available in oil only white and blue. All booms are non-linting and come complete with end rings, snaps and strong rope running the length of the boom. Land Booms are available in universal gray and yellow.

Item Number	Format	Color-Application	Size	Units/Case	Qty/Pallet
WBOOM-510	Boom Sock & Net	White - Oil Only	5" x 10'	4	20
WBOOM-810	Boom Sock & Net	White - Oil Only	8" x 10'	4	12

WIPERS/RAGS

The product numbers and descriptions below are items kept in stock. If you need an item not listed please give us a call for pricing and availability.

Knit Rags - Soft and absorbent knit and T-shirt type material. Excellent for use with solvents and stains.

Thermal Rags - Thick and very absorbent. Ideal for tasks that need a "grip" to remove dirt.

Terry Rags - Imported new barmops and towels. Ideal when a new towel is needed, such as in food service applications.

Item Number	Description	Qty/Pallet
Rag-B5005	Color Knit Wiper / 50 lb RagBale	40
Rag-B5007	Color Thermal Knit Wiper / 50 lb	40
Rag-B5023	Color Laundry Terry / 50 Lb RagBale	40
Rag-B5015	White Cotton Knit Wiper / 50 lb	40

PILLOWS/PANS

Pillows are used to contain leaks and drips that are too large for a pad. Drip pans are a great method for catching and holding quantities of liquids. Universal pans fill completely while oil only pans have drains for water thereby only capturing petroleum based liquids. Pillow and pan configurations are similar to drip pans, however, the pillow can be changed out. Replacement pillows are sold separately.

Item Number	Format	Color-Application	Size	Units/Case	Qty/Pallet
W-PILLOW-10	Pillows	White - Oil Only	6"x16"x21"	10	15
W-PILLOW-1818	Pillows	White - Oil Only	18" x 18"	10	35
W-PILLOW-818	Pillows	White - Oil Only	8" x 18"	20	35
W-PILLOW-1010	Pillows	White - Oil Only	10" x 10"	40	20
GPILLOW-1818	Pillows	Gray - Universal	18" x 18"	10	35
GPILLOW-818	Pillows	Gray - Universal	8" x 18"	20	35
GPILLOW-1010	Pillows	Gray - Universal	10" x 10"	40	20
YPILLOW-1818	Pillows	Gray - Universal	18" x 18"	10	35

YPILLOW-1010	Pillows	Gray - Universal	10" x 10"	40	20
DRIP-PAN20/CS	Pans & Pillows	White - Oil Only	10"x10"x3	20	12
DRIP-PAN20/CS	Pans & Pillows	Gray - Universal	10"x10"x3	20	12

GRANULAR

Eco Dri™

This 100% cellulose product is proving to be an exceptional granular product. It is easy to clean up, lightweight and biodegradable. Eco Dri is silica and asbestos free and can be used with most liquids.

Item Number	Format	Color-Application	Size	Units/Case	Qty/Pallet
ECO	Paper Bag	Universal	25	each	75

OptiSorb® Premium Oil Absorbent is an all-purpose absorbent designed for the quick clean up of water, oil, and grease. Made from diatomaceous earth, a naturally occurring mineral with superior absorption ability, this high quality product delivers 50% more absorbency per pound than clay alternatives. OptiSorb® Premium Oil Absorbent works equally well on concrete drive-ways and garage floors, quickly and easily soaking up messy spills that can cause accidents.

Item Number	Format	Color-Application	Size	Units/Case	Qty/Pallet
Optisorb	Bag	Universal	25	each	80

NEEDLE PUNCH

Our needle punch rug is the best in the business and is virtually indestructible. Its black color hides grime and is made from virgin polypropylene fibers. Needle punch products will withstand constant forklift and foot traffic while maintaining their resistance to aggressive liquids.

Item Number	Format	Color-Application	Size	Units/Case	Qty/Pallet
NBR-300	Rolls	Poly Back	36" x 300' x 8oz		1
NPR-S300S	Rolls	Charcoal - Universal	36" x 150' x 16oz		1
NPR-S300S-GRAY	Rolls	Charcoal - Universal	36" x 300' x 8oz		1

SECTION 2 - DRUMS

Unitech of Alaska carries a wide variety of UN approved drums from various manufacturers. Available are drums with the capacity of 5-110 Gallons with options of bolt ring or leverlock, lined or unlined and tight head or open head.

Unitech has a wide variety of drums in stock. Special orders for non-stock items are available.

STEEL DRUMS

CARBON STEEL DRUMS

Carbon steel drums are available in a range of sizes from 5-110 US gallons, including the workhorse 55 gallon drum. Custom sizes are available to address specific needs.

Specs

- Capacity: Open Head 5-110 US Gallons
- Capacity: Tight Head 5-55 US Gallons
- Steel Thickness, 0.9-1.5mm (20-16 gauge)
- UN Solids, Liquids, and Dual
- Open Head Closure: Bolt or Leverlock Ring
- Open Head Gasket: EPDM
- Tight Head Fittings: 2" x 3/4" Tri-Sure Style Plug & Flange
- Optional: 2" x 3/4" Rieke Plug & Flange
- Exterior: Black with White Cover
- Optional: Interior Epoxy Phenolic Lining

SALVAGE DRUMS

Constructed of high quality carbon steel, open head salvage drums meet the UN design type requirements. Standard salvage drums feature yellow bodies with red or yellow Acovers, with a multilingual salvage drum logo. Available salvage drum options include 3/4" vent plugs and corrosion resistant epoxy phenolic lining.

Specs

- Capacity: 5-110 US Gallons
- Steel Thickness, 0.9-1.5mm (20-16 gauge)
- UN Solids, liquids, dual and T-rated
- Closures: Bolt style or Leverlock

QUICK LEVER DRUMS

Quick lever drums feature an innovative new UN qualified leverlock drum ring that eliminates the need for tools and takes the guesswork out of complying with technical closure instructions. The quick-lever closure on lever drums secures easily, with no need to measure torque or ring gap. Available son both open head carbon and salvage style drums.

Specs

- Open Head carbon and stainless steel drums with outside heavy-duty leverlock ring.
- UN rated for solids and liquids.
- Easy repeat access
- Fast Installation

REPLACEMENT PARTS

The quality of the container comes from the quality of its components. Exact manufacturer replacement parts are also needed to maintain UN certification. Numerous gauges and diameters of carbon and stainless steel components are available for both open and tight head drums. Gaskets, closure rings, nuts, bolts and plugs are available for all styles of steel drums. Calibrated drum plug torque wrenches are available in 12, 20 and 30 foot/pound capacities. Torque wrenches are designed for Tri-Sure style plugs and are an incredible staple for conforming to UN specifications.

POLY DRUMS

Open Head Poly Drum

Constructed of high density, high molecular weight polyethylene, this drum features a one piece blow molded body. It is stronger, yet lighter than the conventional metal or plastic drums now in use. It is more durable than fiber drums. This drum was designed in strict cooperation with leading industry reconditioners. It can be easily reconditioned, then reused. The drum is fully recyclable and easy to carry, stack and handtruck.

Tight Head Poly Drum

These drums have a welded body with two expanded beads and heads seamed to the body using a non-hardening seaming compound. Round seam bottom chimes on 55 and 57 gallon drums enhance shipping performance. Convex heads have a reinforced circumferential rib. Top head includes 2" and 3/4" diametrically opposed fittings. Other fitting locations in the top and body are optional.

- 15, 20, 30, 35 & 55 Gallon Tight-Head drum
- 5 Gallon Tighthead
- 55 Gallon Open-top, Lever-lock & Bolt-ring
- FDA Approved HMWHDPE
- Available in Blue, Black and Natural Color

5 Gallon Tighthead

Basic Specifications, Square

- 5.0 Gallon nominal capacity
- 5.2 Gallon actual capacity
- 1.1 mm minimum wall thickness
- Weight, 3.25 lbs.
- Height, 13 3/4"
- Length, 11 3/8"
- Width, 10 1/2"

Basic Specifications, Round

- 5.0 Gallon nominal capacity
- 5.2 Gallon actual capacity
- 1.1 mm minimum wall thickness
- Weight, 3.35 lbs.
- Height, 13 7/8"
- Diameter, 12"

Other Products available-

- 15/20 Gallon UN 1.8 Closed Head Drum with Double Handle
- 30/35 Gallon Single Ring UN 1.8 Closed Head Drum
- 55 Gallon Double Ring UN 1.8 Closed Head Drum
- 55 Gallon Water Storage Drum

FIBRE DRUMS

Fibre Lamp Drum

Laminated Fibre with higher puncture strength than corrugated. The sturdy construction protects your fragile lamps. All-fibre construction allows for recycling at the end of the life of the container. The drums are stackable and designed for reuse.

Item Number	Format
FAL1001	Drum, Fibre, Lamp 85 Lamps 4", Inside Dims: 15.5; Inside Height: 48, 125'
FAL1002	Drum, Fibre Lamp Holds 190 4' Lamps; Inside Dims: 23", Inside Height: 48, 125"
FAL1041	Drum, Fiber, Lamp Holds 85 6' & 8' Lampsinside Dims 15.5" Inside Height 75" Expands To 96"

SECTION 3 - BERMS

Industry Proven Secondary Containment Berms for Spill Control

Simple, Compact, Easy Set-up, Durable, Effective, Safe, Re-Usable-Economical

BERMS

Portable Berms were designed to fulfill the need for a compact, highly portable, rugged Secondary Containment which could be stowed behind the seat of a pickup or in the cab of most machines. The Portable Berm was designed to be deployed in seconds and withstand the effects of a wide range of climate conditions from arctic cold to desert heat. Portable Berms will stand-up to hot automotive fluids including oil, brake fluid, diesel, gasoline, coolants and acids. When the Portable Berm is deployed it can be used immediately. It can also be pre-fitted with a disposable absorbant pad for easy clean-up. When the pad becomes contaminated, lift the retaining screen, remove the pad and place in a container for proper disposal at a later time. The Berm is then wiped dry, refolded, belted and stowed for re-use.

Portable Berms are made with a polymer material enhanced with a special coating compound that is good to a negative 65 degrees and up to 130 degrees.

Standard size Berms: 2' x 2' x 6"

3' x 3' x 6"

4' x 4' x 6"

5' x 5' x 6"

(The wall height of 6" is standard but has been made to as little as a 1" depth.)

Unitech of Alaska offers numerous berm shapes and sizes for various equipment types and application requirements including Construction, Marine, Oilfield & Mining. In addition these berms can be used as secondary containment for drums, de-con bases, containers that contain hazardous material, medical purposes and a barrier between earth and any hazardous material. Not only can sizing be customized but a berm can be adapted with customized straps on the exterior or interior. All custom design requests will be reviewed by our Engineering Staff for viability. Upon approval of a design for a specific application a confirmation of availability and price will follow.

SECTION 4 - TOTES

Unitech carries the Magnum series totes in stock. Also available for special order are a variety of totes including, insulated, collapsible, hand held totes and plastic pails. (Unitech keeps a stock of pails)

TOTES

Magnum fixed-wall bulk containers are available in two sizes 42"x29" and 48"x44" and are perfect for handling small parts to large finished goods. Solid, seamless construction offers a watertight interior, perfect for holding pellets, powders and a variety of materials.

The PC4249 plastic tote is designed for air freight and is ideal for rapid handling and efficient cubing of air cargo holds. They're just the right size bulk containers for storing or conveying small batches of material or parts. Lids feature a smooth, slightly domed top, which sheds water easily.

Part Number	Available Colors	Dimensions	Weight	Capacity
Tote1200black	Black	OD 41.6" x 28.8" x 27.8"	70.4 lbs.	900lbs / 13.8 cu. Ft. / 103 gins.

Totelid2000white	White			
DRIP-PAN20/CS	Pans & Pillows	Gray - Universal	10" x 10" x 3"	20

SECTION 6 - SPILL KITS

Sorbent control spill kits are perfect for disaster preparedness. Each kit contains quality products for either oil only or universal spill control. Each kit has standard contents as listed but we can easily customize each kit.

5 Gallon Spill Kit includes:

1 each	5 Gallon Pail with Screw Lid
25 each	Yellow, Universal Sorbent Pads 16" x 20"
1 each	Oily Waste Disposal Bag
1 each	Zip Tie
1 pair	Embossed Flock lined Nitrile Gloves
1 pair	Latex Disposable Gloves
12 oz.	Granular Sorbent 12 oz Optisorb Floor Dri
1 each	Emergency Response Guide

30 Gallon Spill Kits includes:

1 each	30 Gallon Poly Drum with Lid and Snap Ring
15 each	White, Oil Specific Sorbent Pads 16" x 20"
15 each	Yellow, Universal Sorbent Pads 16" x 20"
1 each	White, Oil Specific Sorbent Sock 3" x 4'
2 each	Oily Waste Disposal Bag
2 each	Zip Tie
1 each	Caution Barricade Tape Roll
1 each	PE Coated Tyvek Disposable Coverall
1 each	PE Coated Tyvek Disposable Boot Cover
1 pair	Vented Safety Goggles
1 pair	Embossed Flock lined Nitrile Gloves
1 pair	Latex Disposable Gloves
1 bag	Optisorb Granular Sorbent, 25 lb.
1 each	Emergency Response Guide

55 Gallon Spill Kit includes:

1 each	55 Gallon Drum with Lid and Leverlock Ring
50 each	White, Oil Specific Sorbent Pads 16" x 20"
50 each	Yellow, Universal Sorbent Pads 16" x 20"
2 each	White, Oil Specific Sorbent Sock 3" x 4'
5 each	Oily Waste Disposal Bag
5 each	Zip Tie
1 each	Caution Barricade Tape Roll
2 each	PE Coated Tyvek Disposable Coverall
2 each	PE Coated Tyvek Disposable Boot Cover
2 pair	Vented Safety Goggles
2 pair	Embossed Flock lined Nitrile Gloves
2 pair	Latex Disposable Gloves
1 bag	Optisorb Granular Sorbent, 25 lb.
1 each	Emergency Response Guide

**Option of Poly or Steel Drum*

85 Gallon Steel Spill Kit includes:

1 each	85 Gallon Steel Drum with Lid & Leverlock Ring
100 each	White, Oil Specific Sorbent Pads 16" x 20"
100 each	Yellow, Universal Sorbent Pads 16" x 20"
4 each	White, Oil Specific Sorbent Sock 3" x 8'
10 each	Oily Waste Disposal Bag
10 each	Zip Tie
2 each	Caution Barricade Tape Roll
4 each	PE Coated Tyvek Disposable Coverall
4 each	PE Coated Tyvek Disposable Boot Cover
4 pair	Vented Safety Goggles
4 pair	Embossed Flock lined Nitrile Gloves
4 pair	Latex Disposable Gloves
1 bag	Optisorb Granular Sorbent, 25 lb.
1 each	Emergency Response Guide
1 each	Non Sparking Shovel

95 Gallon Poly Spill Kit includes:	
1 each	95 Gallon Screw Top Overpack
100 each	White, Oil Specific Sorbent Pads 16" x 20"
100 each	Yellow, Universal Sorbent Pads 16" x 20"
4 each	White, Oil Specific Sorbent Sock 3" x 8'
10 each	Oily Waste Disposal Bag
10 each	Zip Tie
2 each	Caution Barricade Tape Roll
4 each	PE Coated Tyvek Disposable Coverall
4 each	PE Coated Tyvek Disposable Boot Cover
4 pair	Vented Safety Goggles
4 pair	Embossed Flock lined Nitrile Gloves
4 pair	Latex Disposable Gloves
1 bag	Optisorb Granular Sorbent, 25 lb.
1 each	Emergency Response Guide
1 each	Non Sparking Shovel
<i>*Option for wheeled or non wheeled 95 Gallon Overpack</i>	
400 Gallon Spill Kit includes:	
1 each	Magnum 2000 Fist Tote with Lid
400 each	White, Oil Specific Sorbent Pads 16" x 20"
400 each	Yellow, Universal Sorbent Pads 16" x 20"
4 each	White, Oil Specific Sorbent Sock 3" x 8'
20 each	Oily Waste Disposal Bag
20 each	Zip Tie
2 each	Caution Barricade Tape Roll
6 each	PE Coated Tyvek Disposable Coverall
6 each	PE Coated Tyvek Disposable Boot Cover
6 pair	Vented Safety Goggles
6 pair	Embossed Flock lined Nitrile Gloves
6 pair	Latex Disposable Gloves
2 bag	Optisorb Granular Sorbent, 25 lb.
1 each	Emergency Response Guide
2 each	Non Sparking Shovel

Trucker Basic/Marine Spill Kit:	
10 each	White, Oil Specific Sorbent Pads 16" x 20"
2 each	Yellow, universal Sorbent Sock 3" x 4'
1 each	Oily Waste Disposal Bag
1 each	Zip Tie
1 pair	Embossed Flock Lined Nitrile Gloves
1 pair	Latex Disposable Gloves
8 oz.	Granular Sorbent (Optisorb)
1 each	Emergency Response Guide
Trucker Spill Kit Deluxe:	
1 each	Duffle Bag Medium
10 each	White, Oil Specific Sorbent Pads 16" x 20"
10 each	Yellow, universal Sorbent Sock 3" x 4'
2 each	White, Oil Specific Sorbent Sock 3" x 4'
2 each	Yellow, Universal Sorbent Sock 3" x 4'
2 each	White, Oil Specific 10" x
2 each	Oily Waste Bag
2 each	Zip Ties
1 each	Premix, 1 lb. jar w/ antifreeze
1 pair	Embossed Flock Lines Nitrile Gloves
1 pair	Latex Disposable Gloves
1 pair	Vented Safety Goggles

SECTION 7 - INTERMEDIATE BULK CONTAINER (IBC)

Customers looking for a more efficient container for large quantities should contact Unitech for intermediate bulk containers (IBC). IBCs decrease customer costs through reduced handling, storage space and shipping expenses. IBCs are easy to use, transport and recycle. IBC containers include a high-density polyethylene bottle in a solid or tubular reinforced steel cage that is attached to a pallet.

SECTION 8 - TANK TRAP

Take it out of the storage case and the Tank Trap™ instantly opens to 20 times its stored size. Now place it where you need it. It's as easy as 1-2-3! Best of all, it's reusable. The Tank Trap™ cleans up in a snap because there are no pockets or folds to trap liquids. Use one anywhere you need instant spill containment. It's ideal for diesel, drums, waste, pails, hydraulics, transformers, hydrocarbons, and oil-based equipment.

- TTF-050 Tank-Trap 50 Gallon
- TTF-100 Tank-Trap 100 Gallon
- TTF-150 Tank-Trap 150 Gallon

The above items are stock items. Unitech will always take special orders.

SECTION 9 - WATER SCRUB UNITS

Water Scrub Units - Drum Type to 10 GPM (Also available 60, 100, and 300 GPM)

These economical adsorbers are your choice for low flow, low pressure liquid phase applications. Downflow operation and a slotted PVC underdrain maximize carbon bed use for removal of a wide variety of organic contaminants. High quality activated carbon provides for long adsorber life. Materials of construction are epoxy lined mild steel.

Absorbw-Scrubber - 55 gallon

This system is the most cost-effective way know to quickly and efficiently remove hydrocarbons from water. Simply pour the oil-water mixture in the top and within seconds clear water is pouring from the bottom. The water scrubber's performance is based on Absorbent W's unique ability to absorb oil while repelling water. See below* for a description of the Absorbent W material.

* Absorbent W particulate is designed to contain and control hydrocarbons (oil-based liquids) while repelling water. Absorbent W is made from wood pulp reclaimed from the manufacturing of paper products. Manufactured through a patented process, it absorbs oil immediately on contact while repelling water; it even floats when saturated. The hydrocarbons are absorbed into the cellulose fibers, preventing leaching in and draining commonly associated with polypropylene sorbents. The performance attributes of Absorbent W particulate make it ideal for cleanup of oil-based liquids in the presence of water.

UNITECH OF ALASKA SALES ENVIRONMENTAL SUPPLIES

The above list is only a portion of the many things we stock and sell. See below for other materials we sell.

Secondary Containment

Enviro liners
Drum & Drain Plugs
Portable Tanks, IBC Horizontal & Vertical
Safety Pallets
Spill Pallets and Berms

Spill Response

Spill Kits, Standard & Custom
Response Cones
Containment Berms
Miscellaneous

Filtration

Oil/Water Separators
Drum Thieves
Filtration Units
Sampling Bottles
Miscellaneous

Equipment

Pumps: Centrifugal, Diaphragm,
Trash, Peristaltic Sewage, Intrinsically,
explosion proof
Generators Gasoline & Diesel
Incinerators
Aerosol Can Disposal Units

Personal Protective Equipment

River Packs
Barricade Tape
Custom Signage
Pipe Markers
Placards
Safety Signs
Shipping Labels
Eyewear
Head, Face & Hearing Protection
Gloves
Boots & Waders
Respirators & Systems
Protective Clothing
Lockout/Tagout Products
Tyveks, P.E. Coated
Full Encapsulated
Level A, B, C & D
Raingear
Insect Resistant Clothing
Custom Gear Bags

Skimmers

Disc
Drum
Weir
Standard Rope Mop
Vacuum
Skimmer Accessories
Hose Floats

Industrial

Bulk Bags (Supersacks)
Polyethylene Bags (1 pint-85 Gallon)
Trash Bags various sizes
Oily Waste Bags
Shop Rags
Snow N Ice Melter

Containers

Fol-da-Tanks & Accessories
Fastanks & Accessories
Tri-Wall Boxes
U.N Hazardous Shipping Containers
1A1, 1A2, 1H1, 1H2
4G Boxes, systems & components
Vermiculite
Fish Totes
Oil Bags & Bladders
